LOCAL MINING REVIEW.

For the week Ending August 2, 1873.

During the past week we have to note the progress of improvements at several of the mines in the building of hoisting works, such as the Raymond & Ely, the Meadow Valley, and the Silver Peak mines. We have received no startling intelligence of the discovery of new mines, nor have rich strikes been made to a great extent. But neither rich strikes nor anything else, can give us as much satisfaction as the large amounts of bullion exported from here, and the

many cases rewarded by good results. CRIEF OF THE RILL. Shaft down from level of the Burke tunnel, 280 feet. Still sinking night and day and will soon attain the depth of 300 eet, when new levels will be run. Ore n the stopes shows no material change. A level from the bottom of the Wright shaft, 210 feet deep, has been run west 150 feet, showing ore most of the way, and is still being driven ahead with two

shifts. Working the same number of men as last week. About 75 tons of ore on the dump, and adding to the pileevery day. Expect to have a crushing shortly HAVANA. Since our last report the shaft has been Since our last report the shaft has been steadily sunk, and the pay streak has as steadily widened. It is now six feet wide, and still dipping towards the hanging wall. There is no longer any doubt that a large and permanent body of ore has been struck in this mine. In quality, too, it is constantly improving, and averages very high grade. Two assays, taken at random, made by Mr. R. M. Cook, tave the following results: \$142.91 and

The incline of this mine is now down 210 feet, and well timbered. There are now 60 tons of good ore on the dump. The company will begin to mill ore this month. The new hoisting works are now completed. The building is 30:50; the engine, which is of about 30-horse power is new, as is also the believe and at the engine, which is of about 30-horse power is new, as is also the boiler and all the machinery. A carpenter shop and other improvements are soon to be added to the main building, making it complete in every respect. Twenty-five men will be put to work on Monday, working day and night.

Have nothing of special importance to note since last week, further than that sinking still continues on No. 3 ledge day and night, with good prospects of soon encountering good ore.

VULTURE. Still sinking the main shaft, which is now down 100 feet. The ground is get-ting softer, and more ore is coming in, especially on the hanging wall.

ing affair occurred on Friday evening, and we gave in our issue of vesterday as full an account as we could gather considering the want of time to prepare it and the inability on our part to obtain, during the first excitement caused by the affair, a perfectly true account in every

particular. We made one actual error in stating that Moriarty (for this is the true name of the deceased) had fallen to the ground, as he did not fall.

Yesterday we gave the statement made by the dying man, and in this statement were the words "Frank Cleveland gave him the pistol. Georgie Syphers told

me." Now, yesterday morning we re-ceived a visit from Mr. Frank Cleveland, during the ensuing week.

ALY MONE & ELY.

The works are fast approaching completion, and work in the mine will soon be resumed.

Since our last report the shaft has been deepened, with excellent results, the vein improving in size and quality. A contract has just been let to sink the shaft 30 feet deeper.

Working 40 men, and taking out five tons of first-class ore daily, besides some inferior ors. Will resume shipping or about the middle of next month.

WASHINGTON AND CREOLE.

Working 40 men; taking out 8 tons a day. There are about 300 tons of ore new tons of the second Moriarty was fired, and just as McKinney fired the second Moriarty started to the characters of the sour muthority for saying so.

With regard to the characters of the sum mority and McKinney, they are, from what we can learn, not far different from eash other, both having killed bad lives. As our readers may wish to have the particulars of the socialne, when the shooting commenced, in front of, or very near to, Finnigan's saloon on Main street, a few doors above Meadow Valley, and Moriarty was walking down (probably also going on the sidewalk) when the first shot was fired, and just as McKinney fired the second Moriarty started to turn around, and tried to get out his pistol, but seemed under some difficulty,
